PROFESSIONAL EXPERIENCE

Full Stack Developer Intern

MBT | Hosur, Tamil Nadu | July 2026 – September 2026

- Undertaking a three-month full-time internship focused on gaining practical, professional exposure to full stack software development within an industry project environment.
- Working under the guidance of an assigned mentor/supervisor on learning objectives and tasks aligned with real-world software development practices.
- Building familiarity with professional workplace standards, project workflows, confidentiality practices, and collaborative development processes.

Cloud Computing Intern

Skill Intern Pvt. Ltd. | June 2025 – July 2025

- Completed an intensive internship focused on modern cloud computing technologies and architecture.
- Studied core cloud concepts, including deployment models (Public, Private, Hybrid) and service models (IaaS, PaaS, SaaS).
- Gained hands-on exposure to cloud storage management, virtual machines, and scalable computing resources.
- Explored how organizations leverage cloud platforms to improve performance, scalability, and cost efficiency.
- Learned fundamentals of cloud security, data protection, and secure cloud infrastructure management.

PROJECTS

Smart Student Information and Learning Management System

Designed a software system to manage student academic information and online learning activities on a single platform. The system stores and organizes student details, attendance, marks, courses, and timetables; enables teachers to upload study materials, assign homework, and monitor student performance; and allows students to access learning materials, submit assignments, and view results, improving overall communication between students, teachers, and administrators.
